To Whom It May Concern:

What I Love About Complete Framing -

I love their impeccable customer service.

I love that fact that my art is framed to conservation standards.

I love the new and innovative ideas Complete Framing develops for all types of art, especially tapestry work.

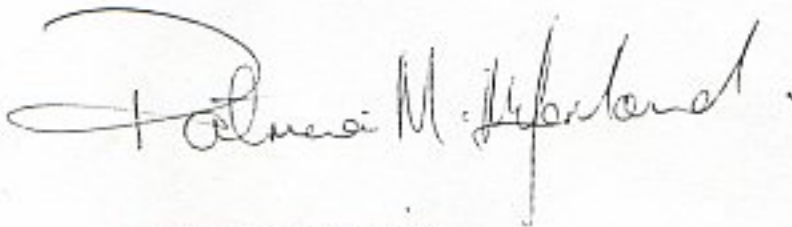

I love the fact that all of the referrals I have sent to Complete Framing are very happy with the service they receive.

I love knowing that Complete Framing has the latest range of products and services available.

I love spending time selecting colours and frames in the friendly atmosphere of Complete Framing.

But most of all, I love Complete Framing because they saved my \$3000.00 art collection after another framing shop cut, glued and all but destroyed my original oils and watercolours

I wouldn't trust my art with anyone else but COMPLETE FRAMING.
